

A data-driven approach to Mobility Assessment

The workshop objective is to present the results of CAMERA Mobility Report and validate its methodology based on Artificial Intelligence techniques (Natural Language Processing algorithms).

Transport stakeholders and experts, European Commission representatives, members of relevant European Technology Platforms (ETPs) and Joint Technology Initiatives (JTIs) are invited to attend this workshop and participate in this validation exercise.

The discussion will be driven to enrich and complement the data-driven methodology for mobility assessment (topic modelling on FP7 and H2020 research projects) with an experts-based approach.

AGENDA

- 10:00-10:30 Registration and welcome coffee
- 10:30-10:50 CAMERA introduction and workshop objectives
- 10:50-11:30 Mobility Report 1: results and methodology
- 11:30-13:00 Artificial vs Human language processing
- 13:00-14:00 Lunch
- 14:00-16:00 Prioritising investment in mobility
- 16:00-16:30 Wrap-up & Final Remarks by EC Officer
